Problem-Solution Fit Canvas

Date	03 October 2026
Team ID	2
Project Name	FitBuddy – AI Fitness Plan Generator using Gemini Models
Maximum Marks	5 Marks

The canvas checks that FitBuddy addresses the real causes, behaviours and limits of its target users.

Define CS — fit into CC

1. CUSTOMER SEGMENT(S) [CS]

- Beginners and students starting fitness
- Busy professionals needing flexible plans
- Coaches / trainers managing several clients

6. CUSTOMER LIMITATIONS [CL]

- Can't afford a personal trainer
- Little time; may have no gym equipment
- Low fitness knowledge; fear of injury

5. AVAILABLE SOLUTIONS [AS]

- YouTube / blogs: free but generic
- Fitness apps: polished but fixed templates, paywalls
- Personal trainer: personal but expensive

Focus on J&P, tap into BE, understand RC

2. PROBLEMS / PAINS + FREQUENCY [PR]

- Plans don't fit age, weight, experience (every new plan)
- Plans can't be adjusted when too hard (weekly)
- Coaches lose track of clients' plans (daily)

9. PROBLEM ROOT CAUSE [RC]

- One-size-fits-all content
- Personalization needs expert time, which costs money
- No feedback loop or version record

7. BEHAVIOUR + INTENSITY [BE]

- Copies random routines, skips sessions, quits within weeks
- Searches diet tips without context
- High intensity of frustration after a failed plan

Identify strong TR & EM

3. TRIGGERS TO ACT [TR]

- New year / semester resolutions
- Seeing friends' progress
- A health check-up or weight gain

10. YOUR SOLUTION [SL]

FitBuddy: enter age, weight, goal, intensity and experience and get a structured 7-day plan from Google Gemini in seconds, with a nutrition/recovery tip. Plain-language feedback revises the latest plan and keeps every version. Coaches get a protected dashboard. Safety rules and a disclaimer are built in.

8. CHANNELS OF BEHAVIOUR [CH]

Online: web app (desktop & mobile), JSON API via /docs, printable plan.
Offline: printed plan used at the gym; coach reviews plans with students in person.

4. EMOTIONS: BEFORE / AFTER [EM]

Before: confused, unmotivated, anxious.
After: confident, motivated, in control.
